

nickom

Nickom Constructors and Developers Ltd is a stable company with long-term experience in the construction and development of property in Cyprus. We offer our clients a wide range of apartments, houses, villas, shops and offices to purchase in the best districts of the island.

We ensure the highest quality of construction and development on all of our projects, as we have a team of experienced architects and engineers. The company purchases its own plots and builds its own projects from start to finish.

The company undertakes its transactions in collaboration with professionals; this includes lawyers, financial consultants and real estate experts.

The company's main priority is the satisfaction of all our customers needs.

You can enjoy the joint cooperation of your own ideas which can be embedded into our existing projects or you can plan your own design from scratch together with our qualified architects to produce your dream home.
